Wellfeeling – be at one with yourself

Mind, body and soul in perfect harmony. Enjoy relaxation to the full. Leave your everyday life behind with our hotels' variety-packed pampering programme. Enjoy the silence and tranquillity of cosy corners, the comforting warmth in the sauna and inspiring views of captivating nature.

A close-up photograph of a woman with long, dark, wavy hair lying down. Her eyes are closed, and she has a serene expression. A hand is visible, applying a thick, white cream to her bare shoulder. The background is a soft, textured surface, possibly a towel or blanket, in a warm, golden-brown color. The lighting is soft and natural, highlighting the texture of the hair and the smoothness of the skin.

Beauty – you're in good hands

Our traditional treatments using herbs and pure natural active ingredients are real bliss. We will get you into top shape again. Our highly qualified staff knows exactly where their special touch is needed. Exclusive cosmetic treatments, high quality care products and complementary healing and relaxing therapies contribute to your stay being a fountain of youth.

Fitness – exercise as a zest for life

South Tyrol is an ideal holiday destination during all seasons. The magic of variety really exists. In winter and in summer, in spring and in autumn ... the choice is yours.

Vitale Cuisine – creative, traditional cuisine

Wellbeing stems from the stomach. This fact provides the basis for our Belvita cuisine: fresh ingredients, the best of quality and creatively prepared regional and Mediterranean dishes. Light and agreeable, without having to miss out on the culinary delights. Always aiming for integral wellbeing.

Quality – Belvita is quality in all areas

This is what the Belvita quality standards stand for. Anonymous checks, which are performed on a regular basis, guarantee our guests holidays of the highest standard.

GSUND Belvita Treatment

The unique wellbeing treatment
by Belvita

Pure South Tyrolean products. Local medicinal herbs and essences, oils and the active agents they contain, are used in connection with natural South Tyrolean Alpine spring water.

Medicinal herbs known from herbology like St. John's Wort, night-candle, alpine rose, arnica and mountain pine, develop their health and beauty stimulating effect during this agreeable treatment.

The GSUND Belvita Treatment has been realised in co-operation with the South Tyrolean business Piroche Cosmètiques, and is made up of various massage and pack techniques, which integrate the whole body and start off with a comfortable and stimulating foot bath. Feet and legs are especially spoiled during the relaxing GSUND Belvita Treatment.

The reason is their importance for the overall health condition and the fact that guests of the Belvita Leading Wellnesshotels Südtirol mainly spend their holidays skiing, hiking, climbing, cycling, golfing, and with other activities.

Belvita – hand in
hand with Nature

We at Belvita highly value the pristine nature of South Tyrol, and it is for this reason that our philosophy revolves around a policy of sustainable economics with the aim of treating the resources of nature with respect.

We believe it is vital to invest in the tourism sector for the future of South Tyrol. However it is also imperative to maintain the social and ecological balance while doing this. Tourism, unlike any other sector, depends on an attractive and varied landscape, and is thus directly affected by climate change. Therefore it is important to achieve the right balance between economic performance, and ecological and social responsibility.

Our key areas are:

-  **reasonable energy and water consumption**
-  **ecologically sensitive cleaning**
-  **the sustainable purchase of goods**
-  **the use of environmentally friendly beauty products**
-  **social responsibility**

Our aim at Belvita is to be a role model in the area of sustainable economics, and we continue to break new ground in environmental protection, sustainability and tourism to achieve this goal.

Ski & Fun

South Tyrol offers plenty of active options in nature also in winter: enjoy wintry temperatures under blue skies: skiing, snowboarding, cross-country skiing, snowshoe hiking, sledging, winter hiking and much more ... anything else?

Hike & Bike

Cycling through blooming orchards, hiking to the most beautiful peaks, Nordic walking or simply enjoying the beauty of nature in South Tyrol. The vast valleys, the impressive mountain world, and the Mediterranean climate provide pure recreation and relaxation.

Family & Kids

Recreation for everyone – a place where parents and children can relax together! Families are always very welcome in the Belvita Leading Wellnesshotels Südtirol. While mummy and daddy get spoiled in the wellness area, the children enjoy fun and variety.

South Tyrol in 90 seconds

Contrasting symbiosis

South Tyrol is the most Northern Province in Italy. It borders with Switzerland to the West, and with Austria to the East and to the North. South Tyrol has 512,000 inhabitants, of which every fifth person lives in the chief town of Bolzano. For more than five centuries, this region was part of Austria, until after World War I the victorious powers awarded it to their ally Italy. Today, South Tyrol is a role-model for different ethnic minorities living together, and where German, Italian and Ladin are the official languages.

Alpine and Mediterranean

South Tyrol means snow-covered mountains and palm promenades, cappuccino on the piazza, dumplings at Alpine huts. But also living traditions and modern trends, protected buildings, and modern architecture. The cuisine is a symbiosis of traditional Alpine dishes and Mediterranean finesse. Hence, here it is normal to get dumplings and spaghetti, crunchy "Schüttelbrot" bread and grissini.

Spontaneous and reliable

Three languages, three cultures, one living space: Alpine clarity and Mediterranean ease meet in South Tyrol and combine to a very special culture, which can be strongly noticed in contact with locals. Characterised by a moving history, South Tyroleans are mainly spontaneous and hearty, reliable and authentic in everything they do.

Nature and culture

Orchards, vineyards and Alpine pastures, dense leaved and needle forests stretching up to the Dolomite peaks and glaciers. Only 8% of the entire surface of South Tyrol is inhabited, and the number of farms and hotels is still equal.

In South Tyrol, culture means more than visiting museums, churches and castles. Even though there are more than 800 castles in South Tyrol. Here, culture is a lifestyle, which can be felt in everyday life.
